EDUCATION

Canara Engineering College

Bachelor of Engineering in Artificial Intelligence and Machine Learning — CGPA: 7.8

Mangalore, Karnataka

2023 – 2027

BGS PU College

Pre-University Course (PCMB) — Percentage: 83.5%

Balehonnuru, Karnataka

2021 – 2023

TECHNICAL SKILLS

Languages: Python, SQL, C

Machine Learning: EDA, Data Preprocessing, Transfer Learning, Model Evaluation

Data Analytics: Power BI, Tableau, Pandas, NumPy, Matplotlib

Database: MySQL

Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab

Core Subjects: Data Structures, AI, Machine Learning, NLP, Computer Networks

Soft Skills: Problem Solving, Analytical Thinking, Communication, Teamwork

PROJECTS

AI Generated Image Detection Using Transfer Learning | Python, Xception

Mar 2026– Apr 2026

- Developed a binary image classification model using the **Xception** pre-trained CNN architecture, achieving **85–95% training accuracy** and **80–90% validation accuracy** through transfer learning and fine-tuning.
- Improved model generalization by implementing **data preprocessing**, image normalization, resizing, and data augmentation techniques, significantly reducing overfitting.
- Built an intuitive prediction interface that enables users to upload images and receive **real-time AI vs. real image classification** with confidence scores.
- Applied machine learning concepts including **feature extraction**, model evaluation, binary classification, and performance optimization using Python and TensorFlow.

Online Doctor Appointment Booking System | Java, HTML, CSS, MySQL

Jan 2024 – Feb 2024

- Developed a full-stack appointment management system that streamlined appointment scheduling and reduced patient waiting time by approximately **50%**.
- Designed a doctor schedule management module that improved appointment handling efficiency by nearly **40%** while minimizing scheduling conflicts.
- Automated patient registration, appointment booking, appointment tracking, and doctor availability management, reducing manual administrative work by approximately **60%**.
- Integrated a secure **MySQL database** with Java Servlets and JSP to enable reliable data storage, authentication, and real-time appointment updates.

ACHIEVEMENTS

Completed the **IBM SkillsBuild Agentic AI Program**, gaining practical experience in AI Agent Architecture, Prompt Engineering, and autonomous AI solution development through hands-on projects.

CERTIFICATIONS

Python with TensorFlow: Completed comprehensive training covering Python programming, TensorFlow, Deep Learning, Neural Networks, and Machine Learning through hands-on projects.

One Roadmap: Data Analyst & Data Analyst – Big 4 Ready: Developed practical skills in SQL, Data Analytics, Business Intelligence, Dashboard Development, and Business Problem Solving.

Microsoft Azure Learning Challenge: Gained foundational knowledge of Cloud Computing, Microsoft Azure services, cloud deployment concepts, and modern cloud technologies.
